

SAFE DEFENDER

SOUTH AFRICA'S MOST TRUSTED SAFE PROTECTION

PROTECTS AGAINST ATTACKS BEFORE THEY HAPPEN:

- Cutting • Grinding • In-house

ABOUT

If you're storing up to R400 000 in cash at night - your safe simply isn't safe enough. Safe Defender can help you change that. Take the proactive approach to cash storage safety with a motion-triggered dye solution capable of staining up to 5000 notes that integrates with your current security system to ensure your cash is well protected, before the threat even gets near it. The additional features such as the back-up power-supply, tamper detection/reporting and full audit trail capabilities gives you the peace of mind that your cash is safer than it ever was.

SECURITY:

- Cash stored inside the unit overnight
- Unit is housed inside the safe or vault
- Safe perimeter protected by movement sensors
- System arms and disarms itself automatically
