Omnitracs MobileView

Business, in Real-Time

Business isn't static; it happens in real-time. As your day unfolds, you can't be tethered to your desk—you must be mobile to ensure that the day moves along smoothly. You need information when you need it, wherever you are and on whatever device you happen to have—smartphone, tablet, or PC.

Wouldn't it be nice to know how your day is unfolding before someone calls you?
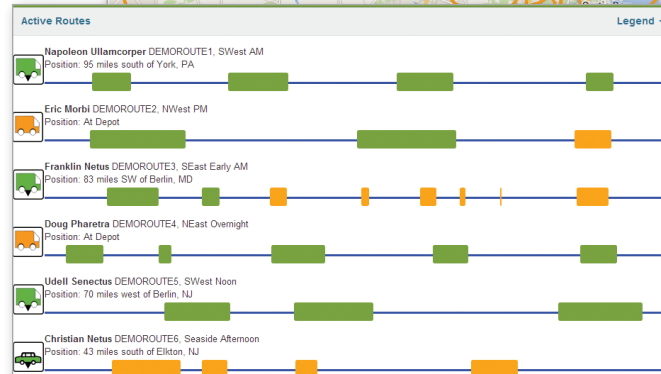

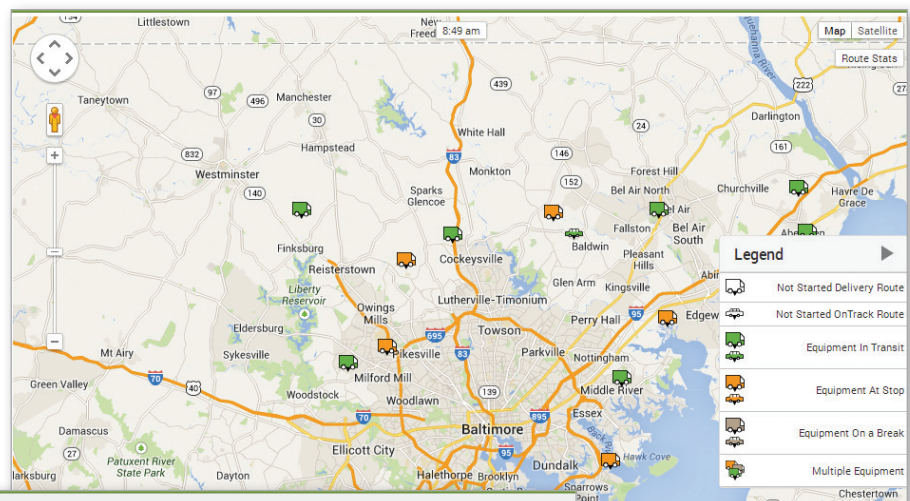

Omnitracs MobileView … the day at your fingertips

Whether you deliver products or have mobile technicians or sales people in the field, you will always know where they are and the team's performance relative to the day's plan with MobileView. MobileView is a mobile application that gives you the key information you need to manage your mobile resources while you're on the go. You'll have visibility into the day's routes, stops and mobile resource performance at your fingertips

Isn't it time to be proactive and not reactive?

With MobileView, you can:

- Choose any device with any operating system to view data

- Quickly visualize where workers are geographically

- Drill down to see stop by stop what work has been accomplished

- See who is or isn't meeting performance standards with regards to set benchmarks

See where all vehicles are in real time

See the progress of a route in real time

Getting More from Your Technology Investment

The Omnitracs Alliance Program facilitates integration of Omnitracs solutions with other leading companies that provide complementary technologies and services. This program taps into the power of integration in order to best meet the needs of our shared customers.

We offer Omnitracs Professional Services to all sizes of fleets to help you utilize our applications and our partners' applications in the most efficient way. Our assessment, integration, custom development and programming, training, business intelligence, and predictive modeling services deliver practical solutions. This critical information increases your productivity and efficiency, so you can both grow and differentiate your business.

The Omnitracs Services Portal provides access to a suite of web-based fleet management applications, including satellite mapping. Data from the Services Portal can be integrated into your existing enterprise systems.

About Omnitracs, LLC
